Schedule - WeCAN Celebration Event

WeCAN
Winchester Climate Action Network

11.30 Jo Crocker, WinACC - introduction

11.40 WeCAN group presentations:

Gwyn Halsall, Upham Action on the Climate Crisis (UpACC)

Kim Blakeway, Sustainable Waltham Chase & Swanmore (SWaCS)

Penny Mahon, Hambledon Greening

12.00 Stuart Mills, WinACC - project overview

12.10 Sara Osman, South Downs National Park Authority

12.20 Lottie Warren, Winchester City Council

12.30 Janet Berry and Nickey Turner, Winchester Food Partnership

12.40 Jo Crocker, WinACC - future plans

12.50 Lunch and networking

Waste Prevention

Recycling and Waste talk by Campbell Williams

Who knew that a talk about waste could be so entertaining? The local residents and members of sustainability groups that attended Campbell Williams' (of Winchester City Council) presentation were not only entertained but also well-informed about the future of waste and recycling in the county. The new national guidelines for all local authorities on waste collection were explained, which will standardise what is collected and how. Pressure is also on manufacturers and retailers to reduce packaging, such as thinner glass and better labelling of packaging material ,and a deposit scheme on drinks bottles and cans .

All the fun of the fete...

What a great day at the Newtown Fete on 25th May! At the C.A.N.S stall, the solar-powered train set was fascinating for younger visitors whilst being a talking point on home energy for the older ones. The washing line of 'rubbish' prompted a lot of thought about where to recycle those difficult items and there was also a lot of interest in our biodiversity projects.

Train set powered by a solar panel

The 'Where to recycle' washing line.

The fete organisers attempted to minimise and recycle more of the waste. The waste stations encouraged people to separate the recyclable material, and, for a well-attended event, there was surprisingly little rubbish. Did you remember to take your own cup?... It is hoped that next year, we can build on this year's successes and further reduce waste.

Biodiversity

We're at it again! More planting on the verges...

As well as continuing with the planting of wildflowers on the bank in High Street, we worked on the roadside verge in West Street. We discovered more species now flowering, including crosswort, red clover and oxeye daisies, In preparation for autumn planting, the group did some potting on of the wildflower plug plants.

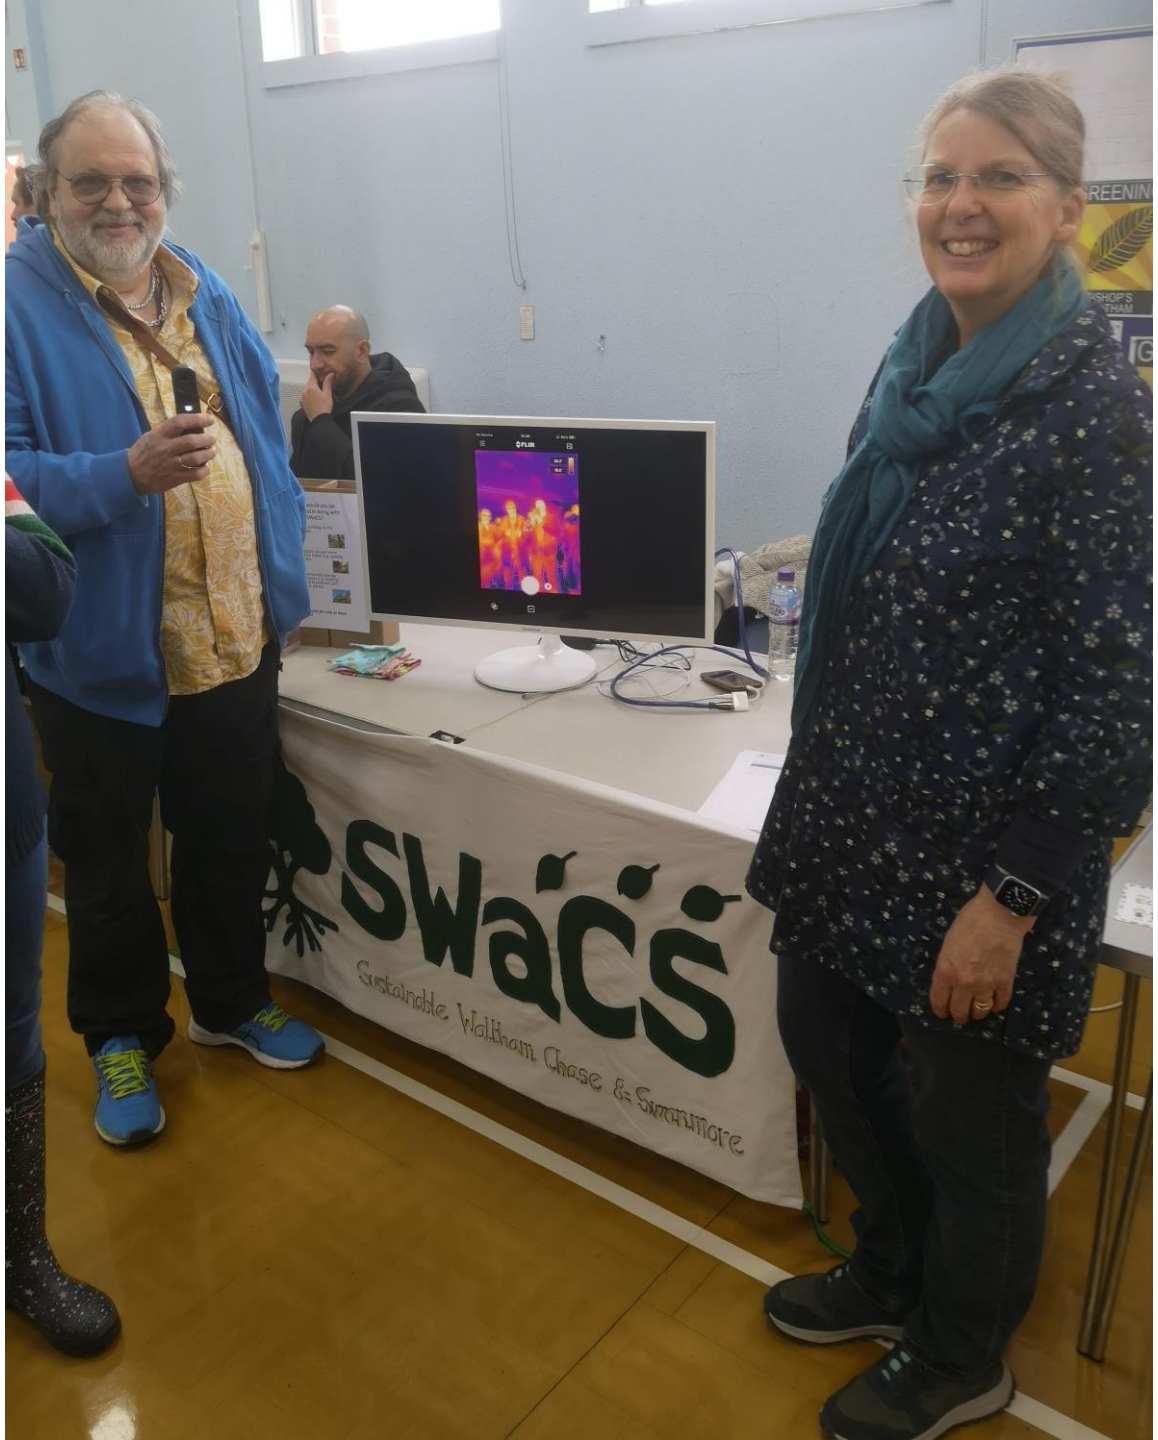

Planting out in West Street.

Keeping on top of the nettles on High Street.

Potting on

Feb 2022 - Jan 2024

Working with 20 communities

Developed 11 new groups
Bishops Waltham
Colden Common
Droxford
Highcliffe
Littleton & Harestock
Otterbourne
Owslebury
Soberton
South Wonston
Upham
Waltham Chase & Swanmore

Supporting 6 existing groups
Alresford
Hambledon
Itchen Valley
Olivers Battery
Twyford
Winchester Repair Cafe

Supporting groups to engage residents on the climate crisis

Energy
8 Thermal Imaging Loan Schemes
5 Home Energy Public Meetings
4 Green Homes Fairs
3 Green Open Home Events
1 Future Energy Landscapes Workshop

Engaging Residents
13 Climate Cafes
7 Stalls at Local Events
6 Green Fairs
5 Residents Climate Surveys
2 Climate Fresk Events
1 Business Sustainability Event

Biodiversity
1 Mini-Wildflower Meadow
1 Bioblitz Event
1 Bug Hotels & Swift Boxes
1 Biodiversity Event

Waste Prevention
3 Swap Events
2 Local Recycling Directories
1 Clothing Waste Event
1 Toy Library Set Up

Winchester Repair Cafe
2 Monthly City Repair Cafes
1 WeCAN Outreach Event
Working with 4 WeCAN Groups

Travel
3 Active Travel Events
1 Local Cycling Map
1 Car Share App (developing)

Food
2 Food Waste Activities
1 Community Allotment
1 Apple Tasting

Bringing groups together to share experiences & ideas

Network Events
9 Speaker Events:
Group Development, Circular Economy, Renewable Energy, Global Levers, Travel, Strategy, Thermal Imaging.

Training
3 Thermal Imaging
1 Community Energy
1 Knowledge Hub

Sharing experiences and ideas

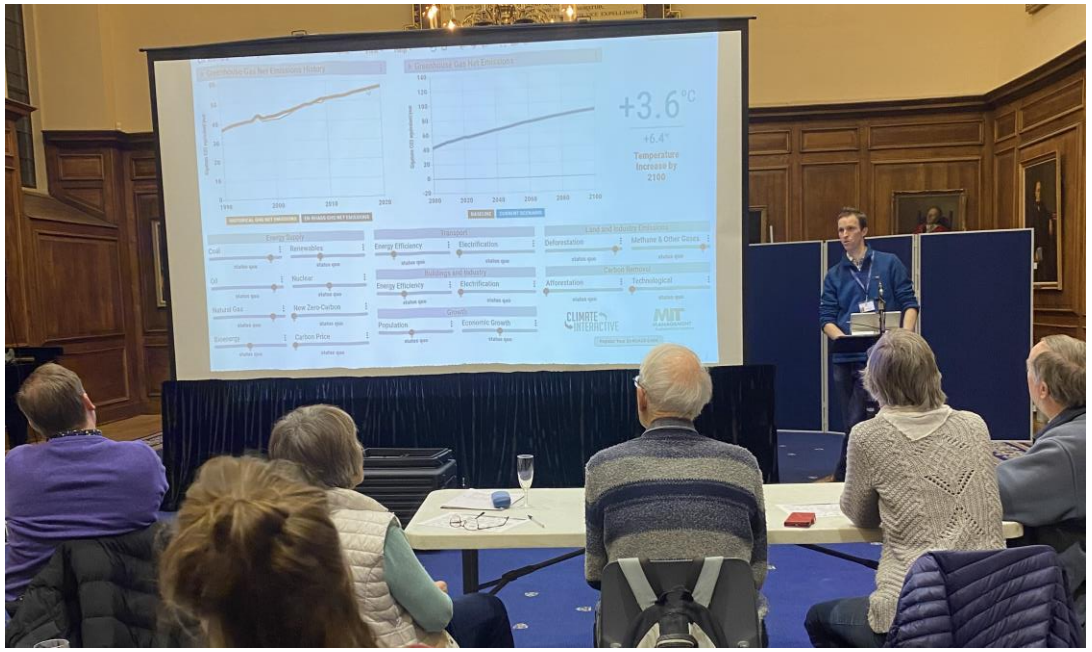

WeCAN
Winchester Climate Action Network

- Organising regular events to create inspiration and meet other groups
- A secure online platform to create a digital learning and sharing network.

Network Events

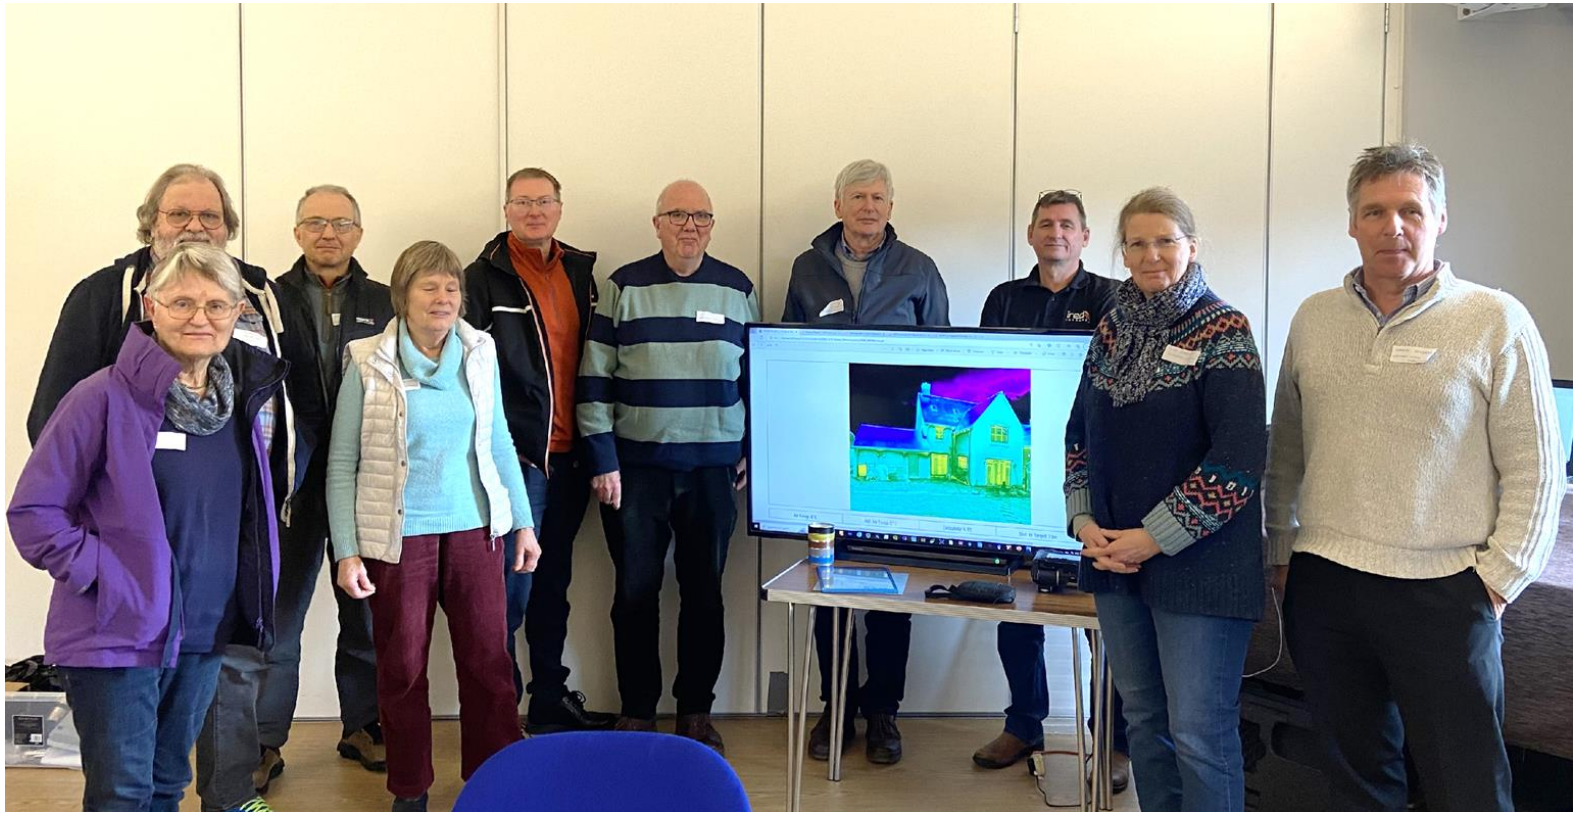

WeCAN
Winchester Climate Action Network

- Low Carbon Travel
- How to set up a new climate group
- Renewable and community energy
- EnRoads tool - global levers of influence
- Circular Economy - repair cafes, sustainable fashion
- Communications - how to set up a website, using social media effectively

Training Sessions

WeCAN
Winchester Climate Action Network

- Thermal Imaging - using an imager effectively
- Energy Champions - providing home energy advice
- Community Energy - solar feasibility studies
